

KICKLESS CABLES

Tipaloy kickless cables are designed to carry maximum current to the welding tips, taking the "kick" out of welding, and offering the lowest reactance.

A change to TIPALOY kickless will provide:

1. More Durability	5. Longer Life
2. Stronger Welds	6. Lower Maintenance
3. Increased Production	7. Maximum Electrical Cond.
4. Less Down Time	

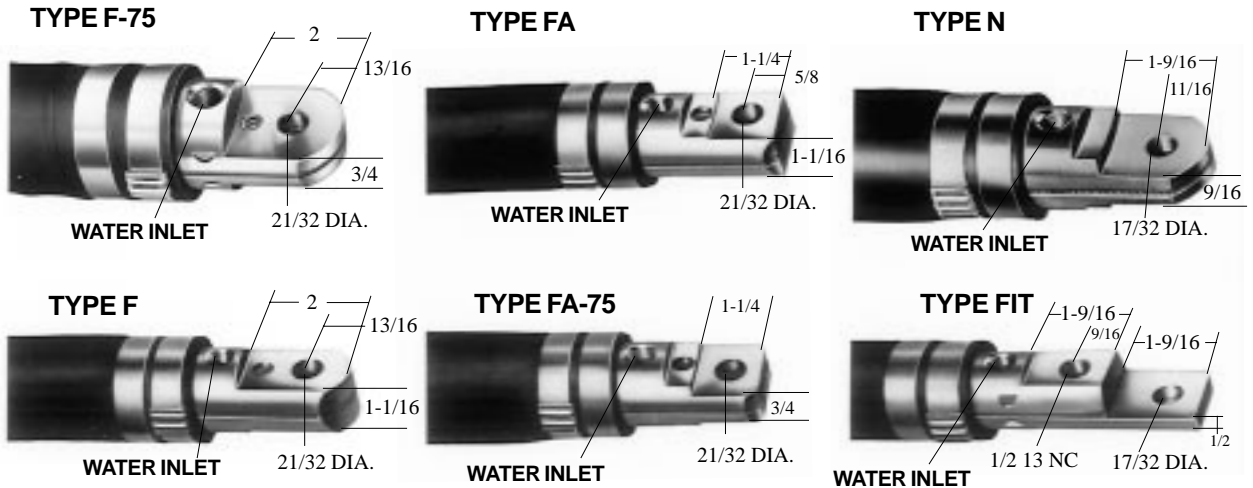

HOW TO ORDER:

Refer to Water Cooled example on page 51.

CABLE SIZE	WATER INLETS	TERMINAL DIAMETERS	OUTER HOSE DIAMETER
300 MCM	1/4" NPT	1-7/16"	1-7/16"
450 MCM		1-5/8"	1-7/8"
500 MCM		1-7/8"	2-3/8"
650 MCM		1-7/8"	2-3/8"

The Kickless Cable terminals shown are standard. Most types, as supplied by other manufacturers, are also available.
